Association of Library Services to Children  
Executive Secretary  
Mildred L. Batchelder Papers, 1929-1966

Note to researcher:

As the Batchelder papers arrived in the archives in a state of disarray, an effort was made to adhere to the categorizing system indicated by Batchelder through what few folders were left intact and through her hand-written designations which can be found on the upper-right corners of some of the items. The researcher should be aware that a strict adherence to Batchelder's subject headings was only possible in cases where explicit designations were given. In cases where it was necessary to create a new subject heading, an asterisk has been inserted on the finding aid to indicate such.
