Engineering

Experiment Station

Technical Reports, 1962-1964

Box 1:

Equipment and Techniques for Sector Type Radio Direction Finder Bearing Data Computing, Recording and Reduction, Contract No. N6-ori-71 Tas XV, ONR Project No. 076 161, Technical Report No. 22, Radio Direction Finding Section, Electrical Engineering Research Laboratory, Engineering Experiment Station, University of Illinois

Progress in Coal Testing by R.G. Wuerker, Madan M. Singh, Nani Chakraverty, University of Illinois, Engineering Experiment Station, Technical Report, 1962

An Investigation of Construction Worker's Safety Helmets by G.W. Harper, C.E. Bowman, L.D. Grider, University of Illinois, Engineering Experiment Station, Technical Report, 1962

Elastic Buckling of Symmetrical Arches by N.C. Lind, University of Illinois, Engineering Experiment Station, Technical Report, 1963

On Elastic Wave Propagation in Crystals with Applications to Calcite and Quartz by A.J. deWitte, Professor of Petroleum Engineering, University of Illinois, Engineering Experiment Station, Technical Report

Studies in Spatial Aerotriangulation by H.M. Karara, Technical Report 5, University of Illinois, Engineering Experiment Station, Technical Report

Creep of Circular-Section Torsion-Tension Members Subjected to Nonproportionate Load Changes by N. Patnaik, O.M. Sidebottom, Technical Report 6, University of Illinois, Engineering Experiment Station, Technical Report

Urban Highway Planning Liaison by Joseph M. Heikoff, Technical Report 7, University of Illinois, Engineering Experiment Station, Technical Report

Comparative Performances of Year Around Air Conditioning in a Split-Level Residence, E. J. Brown, J.H. Healy, B.W. Hrykewicz, Technical Report 8, University of Illinois, Engineering Experiment Station, Technical Report

Performance of Three Ducted Electric Heating Systems in a Split Level Residence by James H. Healy, Murray N. Patterson, Technical Report 9, University of Illinois, Engineering Experiment Station, Technical Report

Elastic Plates: Annotated Bibliography 1930-1962 by George E. Sliter, Robert J. Nikolai, Arthur P. Boresi, Technical Report 10, University of Illinois, Engineering Experiment Station, Technical Report

Engineering Experiment Station, University Of Illinois, March 1, 1959, Technical Report No. 16 (Research and Development Report), the Agglomeration of Solid Aerosol Particles by H.F. Johnstone, Technical Director, Contract No. AT(11-1)-276, U.S. Atomic Energy Commission

A Survey of Coal-Related Research at the University of Illinois at Urbana-Champaign, August 9, 1974
