Nuclear Radiation Shielding Studies, 1966-

Box 1:

Nuclear Radiation Shielding Studies, Report No. 1, A Comparison of Theory and Experiment for Shielding by a Structure Against Fallout Radiation by K. Priess and A.B. Chilton, A Report of an Investigation Conducted under the Sponsorship of the Office of Civil Defense under Contract OCD-OS-63-66, University of Illinois, June 1966

Nuclear Radiation Shielding Studies, Report No. 5, Modeling Relationships in Neutron Transport Through Ducts and Cavities by Justo Diaz, a Final Report of an Investigation Conducted under the Sponsorship of the Office of Civil Defense under Contract N0022788C0311 OCD Work Unit 1112C, September 1967

Nuclear Radiation Shielding Studies, Report No. 6, Monte Carlo Calculation of the Spectrum of Gamma Radiation from a Collimated CO-60 Source by E.E. Morris and A.B. Chilton, a Final Report of an Investigation Conducted under the Sponsorship of the Office of Civil Defense under Contract N0022866C0311 OCD Work Unit 1112C, December 1967

Nuclear Radiation Shielding Studies, Report No. 7, An Empirical Formula or Concrete Slab Penetration by Plane Parallel Gamma-Ray Beams by G.R. Thayer, R.W. Roussin and A.B. Chilton, a Final Report of an Investigation Conducted under the Sponsorship of the Office of Civil Defense under Contract N0022866C0311 OCD Work Unit 1112C, January 1968

Nuclear Radiation Shielding Studies, Report No. 8, Monte Carlo Calculation of Gama-Ray Penetration of Ribbed Slabs by E.E. Morris, a Final Report of an Investigation Conducted under the Sponsorship of the Office of Civil Defense under Contract N0022866C0311 OCD Work Unit 1112C, December 1968

Nuclear Radiation Shielding Studies Report No. 9, Experimental Determination of the Gamma-Ray Shielding Characteristics of a Ribbed Slab by D.W. Green, K. Priess, S.P. Chilton and A.B. Chilton, a Final Report of an Investigation Conducted under the sponsorship of the Office of Civil Defense under Contract N0022866C0311 OCD Work Unit 1112C, May 1969

Nuclear Radiation Shielding Studies Report No. 10, Comparison of Scattered Portion of Gamma Radiation Penetrating Ribbed and Plane Slabs by G.R. Thayer, G. Dubois, R.W. Roussin and A.B. Chilton, a Final Report of an Investigation Conducted under the Sponsorship of the Office of Civil Defense under Contract N0022866C0311 OCD Work Unit 1112C, June 1969

Nuclear Radiation Shielding Studies Report No. 11, A Study of the Relationship Between the Neutron Absorbed Doses in an Underground Structure and in a Semi-Infinite Medium by R.W. Roussin, a Report of an Investigation Conducted under the sponsorship of the Defense Atomic Support Agency under Contract DA-49-146-XZ-319, February 1969

Nuclear Radiation Shielding Studies Report No. 13, Ribbed Slab Penetration – a Summary Report by A.B. Chilton, a Final Report of an Investigation Conducted under the sponsorship of the Office of Civil Defense under Contract DAHC20-70-C-0201 OCD Work Unit 1112C, October 1969
