>> 55. Master's Thesis Students, 1999–2000

**Series 3: Subject Files, 1936–2010**
Series 3 constitutes Professor Anthony's subject files, including correspondence, research, surveys, committee work, and press coverage relating to gender and diversity issues in architecture and design. Also included are her African American Architecture Alumni project files, containing completed surveys and correspondence. Funded by the UIUC Brown v. Board of Education Commemorative Committee, Professor Anthony's initiative documented student and professional experiences of African American alumni during the post-segregation era. This series contains two subseries. Subseries A is arranged according to Anthony's index system with titles (based on year and semester) in chronological order followed by subjects in alphabetical order, including African American Architecture Alumni (AAAA), Chancellor's Committee on the Status of Women (CCSW), Design Program Faculty Chair (DES Chair), and Prairie on the Pacific (POP). Subseries B contains alphabetically arranged subject files.

**Series 5: Glass Ceiling: Designing for Diversity Background Research, 1987–97**
Series 5 contains Professor Anthony's Glass Ceiling files—research material that ultimately served as background research and content for her book, *Designing for Diversity: Gender, Race, and Ethnicity in the Architectural Profession* (University of Illinois Press, 2001). This series is arranged in two subseries. Subseries A is organized according to Professor Anthony's index system and includes correspondence, graphics, interview tapes, transcripts, open-ended survey questions, presentations, survey responses, grant proposals, and data analysis. Subseries B consists of additional Glass Ceiling files arranged alphabetically by folder title.
