Series 3: Correspondence

The correspondence in this series was separated from the rest of the McWorter papers by McWorter several years ago. The other series in his papers will also contain correspondence that was not separated out. The series is arranged chronologically, with correspondence that was already put in folders by McWorter listed alphabetically at the end of each decade. Letters without a month listed were placed in the last folder of the year that they belong to. The names of correspondents have been written out; however, a few names were not listed on the correspondence, or were illegible.
