Box 1: Food Protection Committee; Carcinogenesis, 1956-57

Food Protection Committee 1956-1958

Correspondence and notes connected with the National Academy of Sciences and National Research Council's Food and Nutrition Board-Food Protection Committee on which Dr. Carter was a member, including notifications of meetings; travel vouchers; news letters of the Industry Committee of the Industrial Liaison panel of the Food Protection Committee; letters to and from Paul E. Johnson, executive secretary of the committee, and William J. Darby, chairman; announcements concerning Carcinogenesis subcommittee and proceedings of Eighth Annual Meeting of the Liaison Panel of the Food Protection Committee, December 11-12, 1958.

Food Protection Committee, 1959

Correspondence and notes of committee meetings; proposal on solution of problems concerning estimating the potential toxicity of food additives; newsletters of the Industrial Liaison Panel; Summary: Induced Radioactivity in Irradiated Foods Subjected to electron bombardment; nomenclature of food additives; Brochure: Food Protection Committee, Jan., 1959; report on subcommittee on Toxicology, July, 1959; Review of Food Protection Committee Activities during 1959; Proceedings of the Ninth Annual Meeting of the Liaison panel of the Food Protection Committee, Dec. 9-10, 1959.

Food Protection Committee, 1960

Brochures: Food Chemicals Codex Project, "What Consumers Should Know about Food Additives," committee meeting notices, agenda, notices, correspondence, newsletters of Industry Committee of the Industrial Liaison Panel; Report to Task Group on flavor additives; confidential draft of Tolerances for pesticide residues in milk, July, 1960; letter from William J. Darby, chairman of Food Protection Committee expressing appreciation of Dr. Carter's services to the committee prior to his resignation on June 30, 1960. Copy of award for Distinguished Food Law Services to the American People presented to the Food Protection Committee by the Food Law Institute, Inc., Nov. 28, 1960.

Carcinogenesis Subcommittee Reports - 1959

Preprint of Food Additives document proposed definitions and procedural and interpretative regulations; meeting notes in longhand; report of subcommittee on Carcinogenesis: Problems in evaluation of Carcinogenesis Hazard from Use of Food Additives, June, 1959; production of liver tumors in rats; committee meeting notices, correspondence.

Carcinogenesis - Tentative reports and related documents - 1956

Statement of what we know about possible relationships between cancer and food additives, Dec., 1956; Report of the Ad Hoc Subcommittee on Dietary Carcinogenesis; International Union Against Cancer, Report on symposium on Potential Cancer Hazards from Chemical Additives and contaminants to Foodstuffs, August, 1956. Report of the Food and Drug Administration Advisory Committee to consider aramite problems of food safety.

Carcinogenesis - tentative reports and related documents - 1957

Questions for panel discussion - Questions proposed by Liaison Panel Representatives for consideration by Dr. Stewart and panel. Letter from Dr. A.A. Nelson, Medical Officer, Division of Pharmacology, Bureau of Biological and Physical Sciences concerning

Dietary Carcinogenesis, nov. 22, 1957. Report on Polycyclic Aromatic Hydrocarbons. Clinical Structure and Carcinogenic activity, Sept. 16, 1957. "Pilot Studies", Criteria for the evaluation of cancerization hazards by Prof. Rene Truhaut, June, 1957. Correspondence and meeting notices.

Box 2: Carcinogenesis, 1958-60; Reprints, 1935, 1938-44, 1963

Carcinogenesis - Tentative Reports and Related Documents, 1958

Report of subcommittee on carcinogenesis, Oct. 8, 1958; Letters on methods for estimating carcinogenicity from Food and Drug Research Laboratories and Hagleton Laboratories. University of Miami, School of medicine Letter referring to Aramite; list of chemicals which one carcinogenic when given S.C.

Carcinogenesis - Tentative Reports and Related documents - 1959

Draft: Problems in the evaluation of Carcinogenesis Hazard from use of Food Additives, Sept., 1959. Report of a meeting of the Committee on Milk, Food and Nutrition Board concerning Radionuclides in milk and milk products with particular reference to strontium-90, Sept. 29-30, 1959. Copy of C & E special report on Cancer, Oct. 12, 1959. Prepublication draft of Problems in the Evaluation of Carcinogenic Hazard from the Use of Food Additives, november, 1959. Environmental Radiation and Cancer, by Harold F. Blum.

Carcinogenesis - Tentative Reports and related documents, 1960

The role of certain chemical and physical agents in the Causation of Concerns by Dr. C. Burroughs Mider, Jan., 1960. Statement by Arthur A. Flemming, secretary of Health, Education and Welfare, Jan. 26, 1960.
