Series 1: Grants, Research, and Correspondence, 1969–2003

Series 1 contains grant applications (1972-2003) to the Public Health Service (PHS), National Institutes of Health (NIH), National Science Foundation (NSF), Office of Naval Research (ONR), National Aeronautics and Space Administration (NASA), and the UIUC Research Board. The papers also include correspondence, Fulbright fellowship applications (1986-87), and Delcomyn's invention (1984-85), which is a device for connecting a rod-mounted micromanipulator to a magnetic base. In addition, the papers include correspondence with CRC Press and a file (1998-2000) with materials relating to Professor Delcomyn's membership in the UI Survey Advisory Committee.
