Processing Notes:

The archives maintained Professor Fields' section arrangement of materials in series 2 and 3 for which he provided section headings to assist researchers in identifying political movements, but the archives imposed consistent arrangement schemas for materials within each section. While we moved oversized materials to the oversized box 8. of the collection, cross references indicate their original location in boxes of the various series. [] around titles on the paper folders indicate titles were added by archives. The papers were processed by Elizabeth Ray in 2016/2017 and supervised by Susanne Belovari.
