A Dinner for Seward Staley, March 16, 1984

1 - 3/4" VT Master

"A Dinner for Seward Staley at University Inn" 50 minute edited master tape.
Chancellor John Cribbet introduces S. Staley, March 16, 1984. Speaks of Albert Harno, intercollegiate athletics, Seward Staley.

Seward Staley

A. Biographical

Graduated from Springfield College.

Worked at the Holyoke YMCA.

Basketball & Volleyball were invented there.

My major concern is the history of sports.

I attended Clark University & learned what a university was. Its faculty was a band of scholars.

B. Highlights

About 1931 I met and lunched with Baron de Coubertin. He was concerned with the way the Olympics was moving.

G. Huff was a fine man. He had power.

Student from Notre Dame was rejected.

World War I school near Lincoln, Illinois.

S. Staley was a 2nd Lieutenant. Golf. Hung up clubs since shooting. 111. Gymnasium exercises.

Exercise Room at Sun City. 2 ladies showed a new exercise. They sat on a table and swung their legs.

Sports participation in 90 years.

105 sports

Ballooning - 1

Cricket - 1

12 to 15 - 2 to 5 times

6 to 25 times

25 to 100 times

100 to 500 times

Squash, softball over 500 times.

C. Future

Sports is one of the finest experiences in life.

I have studied sports.

Gymnasium, physical culture, physical training, physical education.

As a title, physical education is wrong. "Education" is not necessary.

1 - Sports economics should be taught.

Machines, golf carts, motorcycles, equipment, clothing, licenses, spectator

admissions, employment.
 Study the economic enterprises.
 2 - Sports literature.
 I have worked for 20 years on bibliographies of sports histories and sports biographies.
 Most books are on "how to play".
 Sports magazines.
 People play sports for health, fitness, profit and enjoyment. Satisfaction in infrequency.
 Give them more action and thrills.
 Sports and exercise people are engaged in one of the more important and worthwhile areas of activity in the University.
 Also 1/2" unedited tape and cassette recording.

2 - 1/2" Beta unedited master
 3 - Sound tape cassette

David Dodds Henry Building Dedication, Oct. 29, 1987
 1/2" VHS VT

Max Abramovitz lecture on the planning and design of the Krannert Center for the Performing Arts, April 21, 1989.
