------------------	------------------------	--------------	------------	------	--------------	----------	---	--------------------	-------

Series 2 contains 8x10, 5x7, 4x5, and 2 1/4 x 2 1/4 negatives, but all are stored in 8x10 or 5x7 envelopes. The majority of the envelopes (except for Box 84 and the first part of Box 85) have their own individual entry in this finding aid, which can be searched for keywords. Email illiarch@illinois.edu with any questions about locating specific items or searching for topics.

<b>Box 84</b>	1-113	58b, 60b	969	8 x 10	Collegiate Cap and Gown	All numbered negatives	Likely Collegiate Cap & Gown products.	c. 1950s-1960s	The envelopes and prints in Boxes 84 and 85 are all from Collegiate Cap & Gown, and have alphanumeric designations (i.e., A-1). Most do not have any other information on their envelopes that would identify the negatives within. Some have job numbers that would place them in other boxes (i.e., #7732C); however, as they were filed this way by the Gliessman Studio, the UI Archives has maintained this order.
